She clicks on info icon.

She clicks on "Add Integrations & Bots".

2

A new tab will appear on the browser and it goes to Cisco Spark Marketplace. User can start searching for integrations or Bots. She clicks on the Trello icon.

She goes to the Trello detail page. She clicks on the "Connect & Add " button.

*** In the Spark Marketplace homepage, we should show max 2 category under each integration or bots. But on the detail page, user should be able to see all of them. For instance, here it says "Business" & "Productivity",... It has more like "Task Management" we should add that too.

She can see the list of Trello integrations. ***The pink outline refers to the area that will be implemented by Mulesoft.

Accessing Integration On Marketplace

19 - 1

Jasmine's Screen

In the Spark Marketplace homepage, we should show max 2 category under each integration or bots. But on the detail page, user should be able to see all of them. Jasmine put the mouse pointer on "Integration" and a tooltip will appears that explains what does integrations mean, same thing should happen if she put it on "Bots"

19 - 2

19

Jasmine clicks on "Integrations & Bots" from the top bar.

She clicks on "Integrations".

20

She will see list of all integrations and on the left meny she can see the categories too. She clicks on Trello.

Detail page of an Integration for a User that has not added an Integration yet.

*** If we have Video & Screenshots, then the title should be "Video & Screenshots". If we have only Video, then the title should be "Video", and it goes the same way for screen shot, If we have only screenshots, then the title should be "Screenshots",... If we have none of them, then we should not show the whole section.

21 - 2
